President's Report April - May 2025

Hi Everyone,

I am writing this report from my hotel room in Toronto, Canada. Steph, William and I are currently enjoying an overseas holiday to see family and friends. We have been to Disneyworld in Florida and seen Steph's cousin in Ohio. William is definitely getting used to airports and living out of a suitcase.

I have been a little disappointed that I did not see a Morris Minor in America, who knows I might see one in Canada.

This month is Trevor's mystery run. Meet at McDonalds in Roxburgh Park at 9:00am for a 9:30am staggered start. More details on Facebook or in this Generator.

It looks like the National Rally was a massive success and our members that drove over the Nullabor are on their way home. Unfortunately, one of the cars from our club did not make it to Fremantle due to engine issues.

Thanks to all the people that organized the Nationals for your hard work.

Keep On Morrying

Vice Presidents report:

UK/Scandinavia Trip Part 2

Continuing on from Part 1 of our UK/Scandinavia trip which was in February '25's Generator. We had just arrived in Birmingham for the NEC Classic Car Show. The NEC Show is a 3 day event that displays around 3000 classic cars and motorcycles indoors and also includes an Auto Jumble (British terminology for 'Swap Meet') which consists of dozens of individual stalls selling second hand/used parts as well as new parts for a huge variety of cars.

I had been advised that you could spend 3 days literally walking around the event and this certainly proved to be the case – with Sue seeing 2 days out with me as we looked at the cars and then I spent the 3*rd* day venturing on my own, as it was mainly focused on spare parts at the Auto Jumble. Even after 3 days, I had not seen everything at the event!

On day 1 (Friday) we arrived at about 9.30am to get started at the event. I was keen to see the Morris Minors first up and most of these cars happened to be in the first hall that we visited as part of the various Morris Minor club displays. Becca Treston who is the owner of the popular Morris Minor, 'Peggy' which appears regularly on her YouTube podcase channel The Passenger Seat Podcast' had two displays, one being the Morris Minors Owners Club - Young Members and the other being the Women Driver's Social Club. Sue really enjoyed meeting Becca and the ladies from the Driver's Social Club and seeing their cars and merchandise.

On Day 2 Sue and I were thrilled to be invited to talk with Becca on classic motoring in Australia, as part of her Podcast being held in the Podcast Lounge at the NEC!

We also met with Steph Holloway who has Morris Minor 'Nancy' which features in her YouTube channel 'I drive a classic'. Steph's display car for the NEC was a recent acquisition, 'Speedy' which is a 1950's Standard 10. Having been a regular viewer of these ladies' motor car YouTube channels where they discuss and road test different classics as well as talk to owners, it was great to meet them in person.

Another highlight of the NEC was seeing the 1 millionth Minor to be manufactured which was on display with three other Millionths on display. Sue also really enjoyed seeing the MGBs!

The range of cars at the NEC Classic Car Show was huge and Morris Minors featured in strong numbers throughout the different clubs and displays held by the Morris Minor Regional Branches. Having seen many photos of cars at the NEC on social media over the years, I was keen to see if they were as good as they looked in real life. I was 'blown away' by the quality of the workmanship of all the restored vehicles on display. It was also great to talk with like-minded people about cars and find some suppliers of usually hard to find parts!

In addition to attending the NEC, we were considering whether to head to Gilks Garage and cafe in Kineton at the end of day 1, which was about 45 miles drive from Birmingham. Gilks had previously been a Hillman agency. I was aware that the Coventry and Warwickshire Morris Minor Owners Club were meeting that night but after a big day at the NEC we weren't sure about attending. We had met Keith Gilks' owner of Gilks Garage and cafe the prior year when in the UK and out of all the thousands of people at the NEC, who should I meet but Keith coming out of the bathroom! Keith was very encouraging about us attending the meeting and so we decided to travel there for the evening gathering. It was a great evening, with excellent food and would recommend anyone to head to Gilks if they are in the area!

After the 3 days in Birmingham at the NEC, we headed back towards London, and while you might think we'd had enough of cars, this was not the case, and our next stop was the British Motor Museum. Here we had a great day viewing the huge range of cars, which were displayed as part of for motoring through the decades. These displays included relevant marketing for the cars, clothing for the relevant period and also interesting details about the progress of motoring rules and regulations over the last 100+ years. The displays included first and last models off the production line including prototypes that didn't ever get produced.

We saw the Number One Morris Minor and also a Morris Minor Fire Truck – interestingly many car factories had their own fire truck and/or police for emergencies. Car number 1. The first Morris Minor off the production line. When the Millionth car was built, Morris held a competition to find the oldest Minor to exist in the UK. Mr Cyril Swift of Sheffield entered and much to everyone's surprise, his Minor was the very first. In 1961, Morris swapped Mr Swifts number 1 car for a Millionth version

There were also cars used in movies, such as James Bond, The Thunderbirds and many from British TV series' and others with famous owners such as Princess Diana and the Queen Mother. Fascinating!

One of many prototype models on display at the British Motor Museum. A 1964 Mini/MG. Based on a Mini floor pan and driveline.

We journeyed on to London (via various locations made famous for the film Chitty Chitty Bang Bang) before heading to snowy Scandinavia – the only motor vehicle museum that we saw for the remainder of our trip was in Narvik, Norway where there was a small but interesting display as part of the War Museum. Our trip was then focused on Christmas markets, castles and cities as we travelled via planes, trains and buses as we completed a great trip!

Hobson Bay Men's Shed Run

A great day was had by all when we met the challenge of crossing the Westgate Bridge at the same time as a fun run was happening! The weather was kind, so we were lucky with that. There were many types of vehicles. It was inspiring to see the variety of vehicles and the great condition of them. The meal at the Kooringal Golf Club was also enjoyed by all.

Thank you to Mark Bosley and Craig Ellis for images from the day.

Florence Thomson Tour:

Some of the usual suspects at the Florence Thomson Tour, looking the part, dressed in the era of their vehicles. This is a fantastic, lady drivers only event and it covers vintage vehicles. The weekend, run in different regional areas includes a dinner with awards for various categories and a great time is always had by all.

NATIONAL RALLY 2025 Perth

NATIONAL RALLY 2025 Perth

If you have been following Graham Dines very comprehensive coverage of the trip across the Nullabour to Perth you will know what an amazing feat they have achieved. Graham posted to Facebook that they were 'finally back home after 28 days on the road. We drove about 8400kms to Fremantle and back.'

This is a mighty effort and Graham and his convoy are to be congratulated for their tenacity, sense of adventure and fun. I have included some photos here but do go to the MMCCV Facebook page to see just what they got up to.

MORRIS MINOR DASHBOARDS:

I have supplied - as a small contributor - Morris Minor dashboard parts to a keen UK member Richard James of Hampshire, since he wished to create this wall display for his own garage or man-cave.....viz...
All the styles of dashboard offered to the buying public in the Morris Minor during it's production run.

Of course, after 1962 we did not see them in Australia.

NB. There are two more to be added: the earliest style did not even have **demister-vents** since the engine/car had no heater capability.
Further, Richard plans to show the circa 1960-61 dashboard style which for the 349 production-run "Minor Million" was actually painted in commemorative "Lilac" (along with a white-leather trim)!
